

Alaska EMT – I Vocabulary List

July, 2003

activated charcoal	nasopharyngeal
adequate	neurogenic
agitated	normothermic
agonal respirations	obligation
alveoli	oropharyngeal
analgesic	oscillation
anaphylaxis	oxygenated
anatomical	oxygenation
angina	palpation
angulated	pericardial tamponade
apnea	phantom pain
auscultation	pulmonary
authorization	pupillary
avulsion	referred pain
bradycardia	retractions
bronchioles	sepsis
cannula	supplemental
capillaries	tachycardia
cardiopulmonary	tachypnea
carina	vasodilation
composition	ventilated
constriction	ventilating
crepitus	
cyanosis	
defibrillation	
deoxygenated	
diaphoretic	
dislodged	
distal	
distended	
distension	
emphysema	
fibrinolytics	
flail chest	
flow-restricted, oxygen-powered ventilation device	
hyperglycemia	
hyperventilation	
hypotension	
hypothermic	
hypovolemia	
impaired	
inadequate	
Kussmaul respirations	
lacration
